THE ELEPHANT IN THE ROOM
The Impact of Equity, Diversity & Inclusion in the Built Environment

Shavon Arline-Bradley, MPH, MDiv
Safe Routes to School
November
WHAT IS HEALTH EQUITY?
What is health equity?

◦ Health equity means that everyone has a fair and just opportunity to be as healthy as possible.

◦ This requires removing obstacles to health such as poverty, discrimination and their consequences, including powerlessness and lack of access to jobs with fair pay, quality education and housing, safe environments and healthcare.

WHAT IS TRANSPORTATION EQUITY?
Accessible, affordable transportation is critical to the lives we live.

Residents of communities of color and poor White communities, whether rural or urban, must travel to obtain better jobs, secure educational opportunities and get quality health care.

Too often competing interests result in transportation policies that unintentionally leave low-income Americans stranded.

To achieve equity in transportation policy, we need to craft and catalyze strategies that help rural and urban communities of color get the investments needed to spur mobility in every sense of the word.
Shavon’s Definition

◦ Transportation equity means that everyone has a **fair and just** opportunity to have as much walkable, “rollable”, bikeable and transit access as possible.

◦ This requires **removing obstacles to access** such as poverty, discrimination and their consequences, including powerlessness and lack of access to jobs with fair pay, quality education and housing, **safe environments, advocacy and political power**.
What are the “equity elephants” in the Built Environment, Transportation Room....
Equity Elephants In the Room ..... 

◦ Racism 
◦ Classism 
◦ Criminal Justice System 
◦ Transportation Systems 
◦ Lack of Training 
◦ Industry Capacity 
◦ Advocate Capacity 
◦ Denial 
◦ Social Norms
Decisions Are Driven By
Many Decisions are Driven By Historical and Present-Day:

- Racism
- Discrimination
- Injustice
- Segregation
- Social Isolation
Contextual Factors on inequities
(Race, history, culture, law, socioeconomic)
RACISM: Harmful Determinant

➢ **Racism** refers to institutional and individual practices that create and reinforce oppressive systems of race relations whereby people and institutions engaging in discrimination adversely restrict, by judgment and action, the lives of those against whom they discriminate.

➢ **Institutional Racism** refers to the policies and practices within and across institutions (i.e. health, housing, education, transportation) that, intentionally or not, produce outcomes that chronically favor, or put a racial group at a disadvantage.

➢ Aspen Institute Community Roundtable on Community Change
THE "LIVED EXPERIENCE" OF RACE
Lived Experience Leads to Death

◦ People of color and older adults are overrepresented among pedestrian deaths.

◦ Non-white individuals account for 34.9 percent of the national population but make up 46.1 percent of pedestrian deaths. In some states, this disparity is even starker.

◦ Older adults are similarly at higher risk: individuals 65 years or older are 50 percent more likely than younger individuals to be struck and killed by a car while walking.

Dangerous By Design, 2014 Smart Growth America Report
Lived Experience Leads to Death

- Even after controlling for the relative amounts of walking among these populations, risks continue to be higher for some people of color and older adults—indicating that these people most likely face disproportionately unsafe conditions for walking.

- **PDI is correlated with median household income and rates of uninsured individuals.** Low-income metro areas are predictably more dangerous than higher-income ones: as median household incomes drop, PDI rises.

- Similar trends bear out with rates of uninsured individuals: as rates of uninsured individuals rise, so do PDIs, meaning that the people who can least afford to be injured often live in the most dangerous places.

- Dangerous By Design, 2014 Smart Growth America Report
HOW DOES THAT AFFECT ME?

WHAT DOES THAT EVEN MEAN?
Connecting the Dots
How can you make a difference?
Moving Toward Racial Equity

- Interrogate Root Cause of Disparities
- Lift up Leadership of Color in Your Movement
- Reframe the Message
- Engage the Community
- Share Power And Resources

By: Simran Noor, Director of Policy and Strategy. 5 Things the Bike Movement Can Do Now to Move Toward Racial Equity, March 27, 2015
1. Advocate the Science
STEP IT UP:

SURGEON GENERAL'S REPORT ON WALKABILITY
Step it Up Goals

◦ Goal 1. Make Walking a National Priority
  ◦ Encourage people to promote walking and make their communities more walkable.
  ◦ Create a walking movement to make walking and walkability a national priority.

◦ Goal 2. Design Communities that Make It Safe and Easy to Walk for People of All Ages and Abilities
  ◦ Design and maintain streets and sidewalks so that walking is safe and easy.
  ◦ Design communities that support safe and easy places for people to walk.
Step it Up Goals

  - Promote programs and policies that make it easy for students to walk before, during, and after school.
  - Promote worksite programs and policies that support walking and walkability.
  - Promote community programs and policies that make it safe and easy for residents to walk.
Step It Up Goals

◦ Goal 4. Provide Information to Encourage Walking and Improve Walkability
  ◦ Educate people about the benefits of safe walking and places to walk.
  ◦ Develop effective and consistent messages and engage the media to promote walking and walkability.
  ◦ Educate relevant professionals on how to promote walking and walkability through their profession.

◦ Goal 5. Fill Surveillance, Research, and Evaluation Gaps Related to Walking and Walkability
  ◦ Improve the quality and consistency of surveillance data collected about walking and walkability.
  ◦ Address research gaps to promote walking and walkability.
  ◦ Evaluate community interventions to promote walking and walkability.
2. Acknowledge the Need for Engagement With Other Persons *Outside* of My Comfort Zone
WHO IS ON THE OUTSIDE LOOKING IN?
Who is on the “Outside” Looking In

Persons Of Color
• Black, Latino(x), Native, Asian

Poor White Communities

Persons Living with Mobility Challenges
Who is on the “Outside” Looking In

Persons from Under Resources Communities
- Lack of Jobs
- Lack of Economic Investment and Development

Persons Living in Gentrified Urban Areas

Persons Living in Rural Areas
Community Engagement
Steps to Successful Community Engagement & Mobilization

Start off with a transparent community selection process and share results

Map community priorities and identify community leaders through community assessments

Hold preliminary meetings with community leaders and enlist their support to mobilize community participation
Steps to Successful Community Engagement & Mobilization

Global Communities Partners for Good – 5 Steps to Successful Community Engagement & Mobilization
https://www.globalcommunities.org/community-engagement-mobilization

Hold community assembly meetings to elect local representation to coordinate program activities

Allow communities to prioritize and select quick impact projects to solidify support and galvanize local participation
3. Act NOW and End the Lip Service
**Act NOW**

**Understand**
Understand historical context before addressing contributing factors to achieving equity in transportation and built environment.

**Change**
Change your lens and adjust your framework.

**Find**
Find the core issue that your community and communities that are most vulnerable should address.

**Identify**
Identify champions in this work – political and community driven (parents, faith leaders, business leaders, schools, government).
Act NOW

Commit to the principles of health equity – community engagement, community empowerment and decision making

Engage new and unlikely partners

Invest in awareness, advocacy and training efforts – providers, families, policy makers and other community leaders
What is Your Why?
